

## Quality, Health & Safety and Environmental Policy Statement

---

Burgoynes is a renowned Partnership of forensic scientists and engineers specialising in the investigation of fires, explosions, engineering failures and other incidents. The organisation provides expert witness services to the legal, insurance and commercial sectors.

As a responsible business organisation, Burgoynes recognises its obligations to consider quality, environmental and health and safety issues in its dealings with its customers, employees and the general public.

Our Quality, Health & Safety and Environmental policy is as follows:

- To review regularly our business performance and seek to continually improve service delivery as measured by Code of Service statistics and to improve management information provision to clients; this is achieved through compliance with the requirements of BS EN ISO 9001:2015 and our Quality Management System.
- To comply with Health, Safety and Environmental statutory regulations, legislation, approved codes of practice and other commitments to which we may from time to time subscribe.
- To comply with our Code of Business Conduct and Ethics.
- To manage significant environmental impacts, reduce pollution, emissions and waste.
- To assess thoroughly the risks arising during the course of our work, and to introduce measures to eliminate or control those risks for the protection of our employees, our clients and the general public as far as is reasonably practicable.
- To invest in staff training and development at all levels, evaluating performance through the appraisal system process and client reviews.
- To ensure that our policies and business practices are communicated to all employees, or to others working on our behalf, using appropriate training and briefings.
- To review, and where required update, this Policy Statement annually at the Management Review Meeting or more frequently if appropriate.

This Policy is available on the Burgoynes Intranet to all staff and available on request to interested parties.

This Policy is endorsed by: Daniel Jackson (Chair)
